## JACKSON DESIGN AND REMODELING

**LOCATION:** SAN DIEGO, CALIFORNIA

**SQUARE FOOTAGE:** 1,200 (SWIMMING POOL); 755 (OUTDOOR LIVING/KITCHEN)

**INTERIOR DESIGNERS:** TATIANA MACHADO ROSAS AND GABRIEL SEPULVEDA

**RESIDENTIAL DESIGNER:** ARNOLD GARZA

With a love to entertain outdoors and appreciate the beautiful natural setting of their home, the clients wanted an impressive outdoor kitchen that would feel just like an indoor kitchen with all the same amenities and ease of use. The new kitchen is the focal point of an outdoor living space that encompasses a fire pit with a seating area and an infinity pool.

An innovative louvered roof protects the kitchen from sun and rain while also making a strong design statement with a bold architectural profile. Its integrated LED lighting imbues the kitchen with a glamorous and colorful glow after dark. A striking gabion wall is the backdrop for a large TV that can be viewed from the bar.

The outdoor kitchen integrates one of the largest BBQ appliances on the market, along with an under-counter refrigerator, integrated waste management, a pullout for cooking utensils, large drawers for pizza oven trays, and abundant storage. A warming drawer was cleverly located to keep pool towels dry and cozy.

### PRODUCTS

Cabinetry: NatureKast - Contemporary Matte Black  
 Countertops: Dekton - Ananke- Solid, Dekton - Trilium Tech, Dekton Keon Tech  
 Tile: Porcelanosa - Mombasa Prada Acero 18x47
